

### 43" Mobile A-Frame Kiosk

Introducing the 43" non-touch A-frame digital signage, a visually stunning display solution that demands attention. With the flexibility of choosing between a BrightSign or Android player built in, you have the freedom to upload and showcase your content exactly as you envision it. This versatile signage is powered by a battery, allowing you to place it in various high-traffic fields such as shopping malls, restaurants, and hotels without the need for a constant power source. Please note that while this display is suitable for outdoor use during the day, it is important to keep in mind that it is not weatherproof or weather resistant.

The battery-operated unit offers incredible convenience, providing up to 6-10 hours of continuous play on a single charge (charge times may vary depending on the type of content). This ensures that your content will be on display for an extended period, allowing you to engage your audience effectively. Whether you're showcasing advertisements, promotions, or informative videos, this digital signage ensures a captivating viewing experience. With its eye-catching display view and long-lasting battery life, this 43" non-touch A-frame digital signage is a powerful tool for making an impact in high-traffic areas, indoors or outdoors during the day.
